NEB | CELEBRATING THE LESSONS LEARNT

A collaboration of DigiNEB with CrAFt, NEBULA,
NEB Lighthouses and NEB Labs

17-18 December 2024, Brussels
Architects House

We are wrapping up the first generation of NEB projects, and after the first 3 years we'd like to take stock of what has been achieved. What did we learn? How did the context around us change? And how do we bring all of this now into an even bigger, better, more mature, more structured New European Bauhaus: a more impactful New European Bauhaus for the next generation.

The December and March events are the first in a series of engagement activities, both online and on site, that we hope will contribute to shaping not just the NEB of the future, but also the Europe of the future.
